

# IETM Green School 2023

Timeline

---

Extensive and practical training for IETM members on greening tools and sustainable practices

Co-funded by  
the European Union

**April-May 2023**

**3 training sessions** open to all IETM members upon registration in the lead up to the IETM Aarhus Plenary Meeting

**1**

How and why to use  
**carbon footprint  
calculators**

**2**

How to approach  
**climate justice**

**3**

**Sustainable content,  
production and  
consumption** and why  
one size does not fit all

Co-funded by  
the European Union

June 2023

1

**Aarhus plenary:**

Complementary to  
Green School trainings:  
Toolbox sessions at the  
plenary

2

**Aarhus plenary:**

live info session on  
the autumn part of  
the Green School.

3

**Open Call launch**

for autumn trainings

Co-funded by  
the European Union

Summer 2023

# Open call period

IETM Aarhus  
Plenary Meeting

Members will be able to apply with a project or concept idea they need mentoring and/or training for to develop

Focus on project development, not project execution

Co-funded by  
the European Union

Starting in September 2023

# Development of the selected project ideas

Free **training** and  
**mentorship** sessions  
+  
small **fee** for the time  
invested in this development

The goal is for our members' ideas to be **ready for action** by the end of the programme

Co-funded by  
the European Union
