

STAND UP FOR AGORA EU

We ask you to **continue to take action** by contacting your national Minister responsible for European Affairs and urge them to defend AgoraEU and oppose any reduction of its proposed budget.

Please use this template letter, and look for the Minister of reference on the list we have prepared here (in pdf or excel format).

Please feel free to translate and adjust this letter as you see fit, as it may not necessarily be entirely in tune with the economic, political or cultural context of every country. We suggest citing data from the **Eurobarometer on Europeans' attitudes towards culture** — please find it here and find respective pages in the template letter.
