Geographical scope	Cross border, without geographical scope
Type of actions supported	one or more cross-border presentations , international production or co-production, networking
Why inspiring?	<p><b>Social sustainability:</b> The ECF STEP team evaluates applications based on the following criteria: a positive impact on the partner's and/or the applicant's community, addressing and inclusion of un(der)represented groups in society.</p> <p><b>Ecological sustainability:</b> For environmental reasons, the programme particularly encourages applicants to travel over land, e. g. by train, which is widely accepted as the least polluting means of mass transportation and domestic public transport. Due to a costly administrative procedure, car-travels are not prioritised. The minimum distance travelled must be 100 km by the straightest route (as calculated already automatically in the application form). Travels between 100 and 700 km must happen by train/coach, unless not possible due to political/infrastructural reasons. The programme only supports the main transportation method as chosen in the application, combination travels (e.g. train for departure, airplane travel to return) are therefore not eligible.</p>

Type of actions supported	other
Why inspiring?	<b>Human sustainability:</b> All applicants who apply during the LOI window will be invited to participate in setting some of the grantmaking priorities. Applicants will provide input by ranking the thematic priority areas that they believe <b>Social sustainability:</b> social values are at the core of the fund. Projects are first and foremost asked to work from a feminist and/or women's rights perspective; to be self-led by the women, girls, trans people and/or intersex people they serve; and to have the promotion of women's, girls', trans people's and/or intersex people's human rights as their primary mission, and not just as the focus of part of their programmes <b>Economic sustainability:</b> Mama Cash prioritises longer-term and core support because they believe that social change takes time, and that social change work is not done by itself. The supported groups need time and a sustained basic structure, for example in the form of salaries, an office or equipment, to fulfil their missions. The focus is on long-term "movement building", investing in stronger groups and organisations to make this possible.
