Europe for Citizens

 1. **raise awareness of remembrance, common history and values** and the Union's aim that is to **promote peace, its values and the well-being of its peoples** by stimulating debate, reflection and development of networks;
 2. **encourage democratic and civic participation** of citizens at Union level, by developing citizens' understanding of the Union policy making-process and **promoting opportunities for societal and intercultural engagement** and volunteering at Union level.
- In summary, a grant is provided for **a series of events**, in each partner country, where **citizens meet to discuss issues** related to the theme selected by the partners as the focus for their activities.

EUCLID

Strands

There are **4 strands**:

1. **PROJECTS** which **raise awareness of remembrance, common history and values** and the Union's aim that is to **promote peace, its values and the well-being of its peoples** by stimulating debate, reflection and development of networks;

Lump Sum Financing

- For **2.1 Town Twinning**, the lump sum is based only on **the number of participants invited**, i.e. international participants sent by partners from countries eligible for the programme, other than the country hosting the twinning.
- For the **other strands/measures**: it is based on three parameters which constitute the essential elements of all the citizenship actions:
 - **the number of participants**,
 - **the number of countries involved**
 - **the number of events developed** (with no direct impact on the format of activities)
- Initially, the lump sum is determined by taking into account the **number of participants** and the **number of countries**, then, in the case of **several events/activities**, the lump sums corresponding to each event/activity are accumulated.

- The Union grant **cannot finance the entire costs** of the project.

Grants for Preparatory Activities

- For the **projects** in strand 1 (**European remembrance**) & 2.3 (**civil society projects**), it may be useful to provide for **preparatory or research activities**, or activities linked to **social networks**.
- For this purpose, the system provides for **limited lump sums** which are in line with the number of participants in these activities.
- These amounts cover **all preparatory activities together**; in other words, the lump sum is linked to the total number of participants and not to the number of preparatory activities performed.
- Only one lump sum of this type** can be awarded per project.

Strand 1: European remembrance 2016-2020: general

1.2 Civil society and civic participation under totalitarian regimes – e.g. a reflection on the misuses and hijacks of democratic rituals, notably by means of propaganda and official medias

1.3 Ostracism and loss of citizenship under totalitarian regimes: drawing the lessons for today – e.g. how can we cope with political discourses that use fears, prejudices and hatred against certain categories of the population, and how can we build counter-narratives?

1.4 Democratic transition and accession to the European Union – e.g. reflecting on the role of EU membership in the process of democratic transition

Strand 1: European remembrance 2018: anniversaries

- 1918** The end of the WWI – the rise of nation states and the failure to create a European cooperation and peaceful coexistence
- 1938/1939** Beginning of WWII
- 1948** Beginning of the Cold War
- 1948** The Hague Congress and the integration of Europe
- 1968** Protest and civil rights movements, invasion of Czechoslovakia, student protests and anti-Semitic campaign in Poland

Strand 1: European remembrance 2019: anniversaries

- **1979** European Parliament elections – also 40 years since the first directly elected EP in 1979
- **1989** Democratic revolutions in Central and Eastern Europe and the fall of the Berlin wall
- **2004** 15 years of EU enlargement into central and Eastern Europe

Example: The First to Go

- The play toured to venues in Scotland and England, reaching a variety of audiences from seniors to young people and **invited European partners**.
- Included **after show talks** and audience engagement.

- Netherhall Educational Association: **Dissent, Conscience and the Wall** (€ 100,000)

One successful UK-led project in 2016:

- 6 Million+ Charitable Trust: **Every Button Counts**

EUCLID

knowledge beyond borders

Strand 2: Democratic engagement & civic participation

- 2.1 Understanding and Debating Euroscepticism** – e.g. projects that reflect on the understanding of Euroscepticism and foster debates on its implications for the future of the European Union
- 2.2 Solidarity in times of crisis** – solidarity usually refers to a mutual support within a group unified by a community of interest or by shared values, so, e.g., what are the legal, political, economic and even ethical limits of European solidarity? Is there an added value to the EU's intervention in times of crisis when national responses seem insufficient?
- 2.3 Combatting stigmatisation of "immigrants" and building counter narratives to foster intercultural dialogue and mutual understanding**
- 2.4 Debate on the future of Europe** – this should not be limited to those already supporting the idea of the European Union, but reach out to citizens who reject or put in question the European Union and its achievements or remain indifferent.

EUCLID

knowledge beyond borders

2: Democratic engagement & civic part'n: Strand 2.3 Civil Society Projects

- This is about projects promoted by transnational partnerships and networks directly involving citizens, which give them an opportunity to participate in the EU policy-making process in areas related to the Programme objectives.
- This could include: **agenda-setting activities**, advocating during the preparation phase and negotiation of policy proposals, providing **feedback on relevant initiatives**.
- Projects should **stimulate and organise reflection, debates or other activities** and propose concrete solutions that can be found through cooperation or coordination at European level, and ensure a concrete link with the policy making process.
- Projects should actively involve a large number of citizens in the implementation and aim at setting the basis for, or encouraging the development of, **long-lasting networking** between many organisations active in the field.
- This measure supports **projects implemented by transnational partnerships** promoting opportunities for solidarity, societal engagement and volunteering at Union level.

Erasmus+ - Areas

This programme has a budget of **€15.2bn**

Erasmus+ - Strands

Then there are **3 strands** of funding, of which the main two are:

- **Key Action 1 – mobility:** giving individuals or a group the **chance to study, train, undertake work experience and volunteer** with the aim of boosting skills & employability, particularly amongst young people.

*Note that only **organisations** are able to apply for education & training funding under Erasmus+. Training opportunities for **individuals** still exist (as **mobility** projects under Key Action 1), but individuals themselves are not eligible to apply.*

knowledge beyond borders

Erasmus+ - Decentralised

- Then there is the fact that some sub-strands are **decentralised**.
- **Decentralised** delivery means that **funds are handed back** from the EC to be **distributed via the Contact Points** in each of the member states
- **Decentralised** funding is the **easiest EU funding to access**
- However, some **centralised strands** may be relevant for some projects
- Note also that there is the option to **create projects via a batch of mobility grants**

knowledge beyond borders

In summary....

	Decentralised	Centralised
Key Action 1: Mobility	Mobility Grants (education, training, youth) European Voluntary Service (youth only)	Large Scale European Voluntary Service (youth only)
Key Action 2: Strategic Partnerships	Strategic Partnership Projects (education, training, youth)	Capacity Building (higher education, youth)

MOBILITY – DECENT – Youth: Potential activities (1)

Mobility of young people: Youth Exchanges

- Youth Exchanges allow groups of young people from different countries to **meet and live together for up to 21 days**. During a Youth Exchange, participants jointly carry out a **work programme** (a mix of workshops, exercises, debates, role-plays, simulations, outdoor activities, etc.) designed and prepared by them before the Exchange.
- Youth Exchanges allow young people to: **develop competences**; become **aware of socially relevant topics/thematic areas**; discover **new cultures, habits and life-styles**, mainly through peer-learning; strengthen values like solidarity, democracy, friendship, etc. The learning process in Youth Exchanges is triggered by **methods of non-formal education**.

- The following activities are **not eligible for grants** under Youth Exchanges: academic study trips; exchange activities which aim to make financial profit; exchange activities which can be considered as tourism; **festivals**; holiday travel; **performance tours**.

Mobility of youth workers: Youth workers' training and networking

- This activity supports the **professional development of youth workers** in the form of a) participation of youth workers in seminars, training courses, contact-making events, study visits; b) a job shadowing / observation period abroad in an organisation active in the youth field.

MOBILITY – DEGEN – Youth: Extra emphasis...

Extra emphasis will be placed on projects which are seen to be:

- reaching out to **marginalised young people**, promoting diversity, intercultural & inter-religious dialogue, common values of freedom, tolerance and respect of human rights as well as on projects enhancing media literacy, critical thinking and sense of initiative of young people as well as
- equipping youth workers with competences and methods needed for transferring the common fundamental values of our society particularly to the **hard to reach young people** and preventing violent radicalisation of young people as well.

In this regard, taking into account the critical context in Europe - and considering the fact that youth work, non-formal learning activities and volunteering can significantly contribute to address the needs of refugees, asylum seekers and migrants and/or increase awareness about this issue within local communities – particular attention will also be given to support youth mobility projects **involving or focussing on the refugees/asylum seekers and migrants**.
